Dear Ms Robertson,

I am writing about the problems our son Timmy has been having in the past few months. As you know, we moved to this country six months ago and it has been hard for Timmy to adjust to his new school, friends, food and the culture. He is 12 years old and that is a difficult age for young children to change schools to say nothing about countries. As you know, his math grades are suffering the most and my husband and I believe it may be because the system he had gotten used to back home was so different from the new system at your school. Could you make some time this week or next so that I can come down and speak with you about finding a solution to Timmy's problems?

Respectfully,

Anna Stills

Dear Sir/Madam,

My name is Mayu Shimoda, and I am a second year student at Maruyama High School. My classmates and I have enjoyed Tosa Park near our school since we were junior high school students and have some wonderful memories of the park. Unfortunately, the park is getting old and most of the facilities are becoming rusty and dangerous. Last week, two young children were hurt after one of the Jungle Gym pipes broke. We are trying to raise money to repair things and renew the park. We would like to ask if your company could make a donation to help us with this project. We can visit your company any day of the week after school. Thank you in advance,

Mayu Shimoda

Dear Frank,

I can't believe I am about to graduate from university in a few months! I still remember when we first became pen pals five years ago and you helped me so much with my English. I am writing to ask you for some help. I am graduating in March and have decided to go to Europe on my own and travel around a little before starting my new job in April. You once told me about a trip you made to Europe, and I thought I would like to do the same thing. Thanks to you I can communicate in English, but will that be enough? What is the weather like there in March and what should I bring? I am a bit nervous and would appreciate any advice you can give me.

Your friend,

Masato
